

ELECTRO MECHANICAL SYSTEMS LIMITED

08 February 2023

Dear Customer

Toxic Substances Control Act (TSCA) PIP3.1

The Toxic Substances Control Act (TSCA) requires the United States Environmental Protection Agency to compile, keep current and publish a list of each chemical substance that is manufactured or processed, including imports, in the United States for uses under TSCA.

Electro Mechanical Systems Ltd is both an importer and manufacturer of motors, actuators and electro-mechanical motion control devices, but is neither a manufacturer nor importer of chemicals. Any substances (such as lubricant, adhesive etc) contained within our products placed on the market are not intended to be released during normal or reasonably foreseen conditions. Any substances used in the process of manufacturing products are used for the purposes for which they were intended and in accordance with the MSDS.

In response to the PIP3.1 amendment of the TSCA, Electro Mechanical systems can confirm that it does not process or distribute the following chemicals as a homogenous material, and that, to our knowledge, these materials are not present within the products we manufacture and supply.

- 1) Phenol, isopropylated phosphate (3:1) (PIP (3:1))
- 2) Decabromodiphenyl ether (DecaBDE)
- 3) 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- 4) Hexachlorobutadiene (HCBD)
- 5) Pentachlorothiophenol (PCTP)

If you require any further information please contact me at the address below.

Yours faithfully

Ryan Sanderson
QHSE Manager
