

Electro Mechanical Systems Limited (EMS)
ENVIRONMENTAL POLICY STATEMENT

The Management of EMS are committed to improving the environmental performance of our Company and will endeavour to:

- Meet the requirements of relevant legislation and strive to make progress towards the adoption of an appropriate environmental management system
- Encourage all Staff through awareness to improve environmental performance
- Promote recycling and the use of recycled materials
- Reduce the consumption of materials wherever practicable
- Minimise energy consumption wherever practicable
- Use best practice to prevent the pollution of the atmosphere, ground or ground water
- Employ appropriate contractors to dispose of waste to ensure the most practicable means to minimise such discharges
- Minimise waste in all manufacturing processes
- Review this Environmental Policy Statement for continued appropriateness at Quality Management Review meetings

Approved:

Stewart Goulding - Managing Director
