

EMS

ELECTRO MECHANICAL SYSTEMS LIMITED

15 February 2024

Dear Customer

Russia (Sanctions) (EU Exit) (Amendment) Regulations 2023

The prohibition on the import of specific Russian iron and steel products came into effect from 30 September 2023, including those which have been further processed in third countries. The Regulations impose financial, trade, shipping and immigration sanctions for the purposes of encouraging Russia to cease actions which destabilise Ukraine, or undermine or threaten the territorial integrity, sovereignty or independence of Ukraine.

EMS has assessed our supply chain in relation to these products and can confirm, in accordance with the above Regulations, that our products do not originate from Russia nor are they made from raw materials that originate in Russia or have been subsequently processed in third countries into any of the specified products which are covered by the regulation prior to importation into the EU.

If you require any further information please contact me at the address below.

Yours faithfully

Ryan Sanderson
